

GMP CERTIFICATE PROCEDURE

The interested company submits to BNAEOPC the following documents:

1. Application for a GMP certificate of conformity

1.1 Company's own declaration that it follows the principles of Good Manufacturing Practice for cosmetic products in accordance with the standard BDS EN ISO 22716: 2008 (ISO 22716: 2007), signed by the person responsible for the production

1.2 Information on the selected auditor who will audit the site

2. Within one week, a commission composed of: an authorized multiplier and a representative of BNAEOPC who shall check the conditions of production and maintenance in the company.

3. The multiplier shall issue an opinion on the verification. If necessary, corrective measures are set with a corresponding deadline for their further implementation.

Based on the opinion of the multiplier, BNAEOPC issues the requested certificate and / or refuses to issue it.

Validity of the certificate: 1 year from the date of issue

The pricing of the service is:

- One-time BGN 200`
- For issuance of a second and subsequent copy of a certificate - BGN 10

If the company needs any assistance of meeting GMP requirements, it can turn to the multiplier for assistance / consulting help. The joint activity is settled by a bilateral agreement between the two parties. It is not subject to discussion with BNAEOPC.

The deadline for implementation by BNAEOPC should be up to 5 working days after the auditor's report is submitted and up to 3 working days after the certificate signed by the auditor.

The service is only available for BNAEOPC's members.
